

ABOUT THE AUTHORS

David Atwood is Director of the Quaker United Nations Office (QUNO) in Geneva. He also manages QUNO's Disarmament and Peace Programme, which has given major attention to the small arms and light weapons issue area in recent years. He is a co-founder of the Geneva Forum and of the International Action Network on Small Arms. Atwood has spent most of his working life in peace and social change work. Prior to coming to QUNO in 1995, he served as the General Secretary of the International Fellowship of Reconciliation. He holds a PhD in Political Science from the University of North Carolina–Chapel Hill.

John Borrie leads the *Disarmament as Humanitarian Action* project at UNIDIR. His research and working experience has covered many aspects of arms control and disarmament. As well as editing and contributing to the preceding volumes of the project's work, Borrie is the author of "A Global Survey of Explosive Remnants of War"—which was published by Landmine Action UK, and fed into the CCW negotiations on a protocol on explosive remnants of war in June 2003—and various articles and papers published on disarmament-related topics. Prior to joining UNIDIR, he worked with the Mines-Arms Unit of the International Committee of the Red Cross and was Deputy Head of Mission for Disarmament in Geneva with the New Zealand Government between 1999 and 2002.

Robin Coupland is an adviser on armed violence and the effects of weapons for the International Committee of the Red Cross (ICRC). He became a Fellow of the Royal College of Surgeons and joined the ICRC in 1987, working as a field surgeon in many countries. He holds a graduate diploma in international law from the University of Melbourne in Australia and has published medical textbooks about care for wounded people and many articles relating to the surgical management of war wounds, the effects of weapons and armed violence. His paper entitled "Modelling Armed Violence: A Tool for Humanitarian Dialogue in Disarmament and Arms Control" was included in the project's first publication.

Michael Crowley is Executive Director of the Verification Research, Training and Information Centre (VERTIC). He has worked for nearly twenty

years on arms control, security and human rights issues, including with the Omega Foundation, where he was a Senior Research Associate, managing the Arms Trade Treaty project at the Arias Foundation in Costa Rica and as Senior Arms Trade Analyst at the British American Security Information Council. He has also held several positions with Amnesty International. He holds a BSc (Honours) degree in Genetics from Liverpool University.

Rebecca Johnson co-founded the Acronym Institute for Disarmament Diplomacy in 1995 and currently edits its journal, *Disarmament Diplomacy*. She holds a PhD from the London School of Economics and Political Science and degrees from the University of London, School of Oriental and African Studies, and the University of Bristol. Johnson reported from Geneva on the Nuclear Test Ban negotiations from 1994 to 1996, and has written extensively on various aspects of multilateral arms control negotiations. As well as a policy analyst and author, she has considerable experience as a grassroots organizer, and serves as an adviser or board member for various international NGOs in the security field.

Vanessa Martin Randin is a researcher on the *Disarmament as Humanitarian Action* project and has co-edited previous publications from the project. Since 2003 she has worked at UNIDIR, a position initially funded by the Canadian Foreign Affairs Department. Prior to this, she was a Rotary Fellow at Lancaster University in the United Kingdom, where she completed her Masters degree in International Relations and Strategic Studies. She also holds a degree from the University of Western Ontario in Canada. Her previous publication “A Comparison between Arms Control and Other Multilateral Disarmament Processes”, co-authored with John Borrie, can be found in the project’s first volume of work.

Aurélia Merçay has a Masters degree in physics from the Swiss Federal Institute of Technology in Lausanne. Prior to joining the *Disarmament as Humanitarian Action* team, she was a researcher at the University Institute of Applied Radiophysics and worked as a medical physicist in the radiation oncology service of the University Hospital of Vaud in Lausanne.

Gro Nystuen (dr. juris) joined the Norwegian Foreign Service in 1991. She is currently the Chair of the Council on Ethics for the Norwegian Government Pension Fund–Global, and is an associate professor at the Norwegian Centre for Human Rights at the University of Oslo. She chaired the Government Petroleum Fund’s Advisory Commission on International

Law until the Council on Ethics replaced it in November 2004. Nystuen was also a member of the Graver Committee, which proposed the ethical guidelines for the Petroleum Fund.

Andreas Persbo is an arms control and disarmament researcher at VERTIC. He has previously been a consultant for the British American Security Information Council. He has also worked as a lawyer at the District Court in Sweden, and has military experience from serving with UN forces in Lebanon and the former Yugoslavia. Persbo has published widely on arms control issues, with an emphasis on nuclear arms control and disarmament.

Daniël Prins is Deputy Head of Mission of the Delegation of the Netherlands to the Conference on Disarmament in Geneva. He was a lecturer on International Security at the Royal Netherlands Naval Institute before joining the Dutch Foreign Service.

Nathan Taback received his doctorate in statistics from the University of Toronto. He is a research scientist at the Centre for Research on Inner City Health at St. Michael's Hospital and an assistant professor of Public Health Sciences at the University of Toronto. His research interests include the application and development of statistical and epidemiologic methods to the study of conflict, global health, human security, human rights and violence.
